🎓 EDUCATION

B.Sc. Software Development and Entrepreneurship, Estonia Entrepreneurship University of Applied Sciences (EUAS),
2020 – 2023 | Tallinn, Estonia

B.Sc. Mathematics/Computer Science, Rivers State University (RSU),
2011 – 2014 | Port Harcourt, Nigeria

📖 PUBLICATIONS

Final Year Thesis

Defined the System Design & Architecture for Distributed-Data-Collection for Healthcare Systems in a secure way

Final Year Thesis

Automation of Personnel Management System using a Relational Database (SQL).

Seminar Presentations, 300 Level

- National Disaster; A major hazard to information consistency and Security.
- Data validation and integrity; An inevitable ritual in a Computer System.

🧠 TECHNICAL SKILLS

Programming Languages:

JavaScript || TypeScript || Python || Java || SQL || Dart ||

Frameworks & Libraries:

React || Node.js || Next.js || Adonis.js || Flutter ||

Tools & Technologies:

Git || Jira || Postman || REST APIs ||

Other Skills:

System Security || Mobile/Electronics Techie || Electrical Installation || Team Player.

📄 SUMMARY

Holds dual Bachelor of Science degrees in Software Development & Entrepreneurship, and Mathematics/Computer Science. Specializes in designing, developing, and optimizing modern responsive software applications. Skilled at problem-solving, debugging, and system performance enhancement. Results-driven and passionate about software development and IT infrastructure with a proactive mindset and excellent communication skills. Excelling at collaborating with global engineering teams to foster innovation and boost efficiency.

📁 PROFESSIONAL EXPERIENCE

Freelance Software Engineer, (Remote)

2022 – present | Tallinn, Estonia

- Develop and deploy custom software solutions, ensuring scalability, security, and performance.
- Debug and optimize applications, integrating third-party APIs and improving functionality.
- Collaborate with clients to define project scope, gather requirements, and deliver tailored solutions.
- Stay updated with industry trends, implementing best practices in modern software development.

Senior Production Specialist, Eippa WSOperations OÜ (Swappie)

2022 – 2024 | Tallinn, Estonia

- Used specialized software tools (2Utool, 3Utool, Blancco) to test, debug, and reactivate iOS devices.
- Diagnosed and configured mobile devices to meet client specifications and operational standards.
- Executed production tasks within Agile workflows, ensuring efficiency and quality control.
- Provided technical support and logistics coordination for device distribution and customer service.

Junior Software Engineer.,

Zazuu.co - HQ Financial Services, London, England. (defunct).

2019 – 2020 | Lagos, Nigeria

- Developed and optimized cross-border payment algorithms, improving transaction efficiency.
- Integrated third-party payment APIs, enabling seamless support for local African payment methods.
- Implemented security protocols to protect financial transactions and prevent fraud.
- Collaborated with engineers and product managers to enhance platform features and user experience.

📁 SOME FEW PROJECTS

Horizon Banking App, (In Progress)

A financial SaaS platform built with Next.js, for real-time banking, transactions, transfers, and finance management that links multiple bank accounts.

Meal-Tracker App

Built a calorie-tracking app using JavaScript, Adonis.js, MySQL, and Bootstrap.

Mortgage Calculator

Developed a Java-based mortgage calculator with OOP principles.

Weather App

Integrated OpenWeatherMap API into a Flutter app with BlocListener for UI updates.

CERTIFICATIONS & TRAINING

Network Security Expert – NSE-1: Fortinet Training Institute, 2020

Intensive - Agile Development Bootcamp: AS Proekspert.ee , Tallinn, Estonia - 2022

Quality Assurance Industry Training: Brainnest, Bremen, Germany (Online Course) - 2022

Certified Ethical Hacker –CEH-1: EC-Council, 2015

LANGUAGES

English - Native | Estonian - Basic
